

CAPTURE IT WITH CLARITY

# GAMING

Avigilon's end-to-end high-definition surveillance solutions protect casino assets and keep guests safe by delivering unprecedented image detail that no other system can match. Our components integrate easily with your current infrastructure – including existing analog equipment – to boost current capabilities and give you the benefits of a full high-definition system. Avigilon's solutions allow you to improve casino safety and security by providing you the best evidence possible.

## We've got you covered

### ***Prevent loss with unsurpassed image quality***

Avigilon's end-to-end solutions provide unparalleled image detail, allowing you to confidently see every table and every card on your entire casino floor. Zoom in close to identify suspicious activity with no loss in clarity.

### ***Leverage existing assets. Upgrade when you're ready***

Utilize the power of Avigilon's digital encoder to get enhanced quality footage from your existing analog system. You'll get the benefits of an IP system, without the cost, giving you the freedom and flexibility to upgrade to a full digital system when you're ready.

### ***Make budgets go further***

Avigilon systems deliver better coverage with fewer cameras than traditional systems, resulting in lower installation costs and fewer casino security personnel required.

### ***Reduced liability claims***

Avigilon's high-definition solutions allow you to quickly and accurately identify and refute false liability claims, preventing costly impacts to your bottom line.

## Avigilon Control Center

### ***Easy-to-use software***

Avigilon Control Center (ACC) is powerful and intuitive, with a simple interface requiring minimal training to use. With the industry's quickest search capabilities, you can quickly retrieve evidence and speed up response times and investigations.

### ***Open platform***

The open architecture of ACC gives you the ability to easily integrate with components from your existing systems. Connect seamlessly with access control systems to monitor staff entrances and exits, or integrate with mass notification systems to ensure real-time alarm messaging to all members of your security team.

### ***Superior scalability***

Avigilon Control Center is designed to allow you to manage an unlimited number of cameras, all without slowing down your system. It's built from the ground up to keep image quality big and file size small – meaning you can scale up with minimal network impact.

## High-Definition Stream Management™

Delivering high-definition surveillance video can be taxing on bandwidth and storage. That's not the case with Avigilon thanks to our proprietary High-Definition Stream Management™ (HDSM™) technology. HDSM™ intelligently manages bandwidth and storage, allowing security personnel to find what they're looking for, faster, leading to quicker response times, reduced investigation times and superior overall protection for your casino.

## Digital encoder

Avigilon's H.264 digital encoder converts a standard analog video feed into a digital stream, providing the most cost-effective way of migrating your existing analog system to a network-based IP system. You'll get the benefits of a digital system without wasting the investment in your current analog arrangement, allowing you to migrate to a fully digital system when you're ready.

## High-definition megapixel cameras

### ***A camera for every scenario***

Avigilon's broad range of megapixel cameras gives you the most options to help reduce theft, monitor suspicious behavior and adhere to stringent gaming regulations. Whether it's outside in a parking lot or on the gaming floor, our cameras can provide better coverage in greater detail than ever before at up to 30 frames per second.

#### **HD FIXED CAMERAS**

Monitor casino staff entry and exits points to prevent unauthorized access to secure areas.

#### **HD PRO CAMERAS**

Provides maximum image resolution for covering vast areas with incredible detail. Our 29 MP camera provides the same resolution as up to 95 traditional cameras.

#### **LPR CAPTURE KIT**

Captures license plates with incredible detail in all conditions, 24 hours per day.

#### **HD PTZ CAMERAS**

Track moving objects across the casino floor and get facial detail from up to 900 ft away with built in 20x optical zoom.

#### **HD DOME CAMERAS**

These discreet cameras are perfect for monitoring table games, entrances and exits with maximum resolution.

#### **HD PANORAMIC DOME CAMERAS**

Get 180° or 360° scene coverage from a single point to cover more area with fewer cameras.

#### **HD MICRO DOME CAMERA**

A discreet camera that can be installed in inconspicuous locations, while still providing unparalleled image detail in 1 MP and 2 MP resolutions.

#### **HD BULLET CAMERAS**

Adaptive IR illumination provides image detail in complete darkness to keep guests safe late at night when resources may be fewer.

## Hard Rock Albuquerque

### **Challenge**

Ensure the safety of hotel guests and the security of a 100,000 square foot casino.

### **Results**

- 70 percent annual reduction in power consumption
- Met regulatory standards

“Not only will the Avigilon system provide our security personnel with best image quality to prevent potential security and liability issues, but with Avigilon we can also leverage our existing assets and minimize investigation time.”

– David Schmidt, CCTV supervisor at Hard Rock Hotel and Casino Albuquerque

## The Point Casino

### **Challenge**

Meet industry regulations, boost onsite security, and protect tribal assets against theft and fraud.

### **Results**

- Investigations resolved 15 times faster
- Cost effective transition to high-definition
- Broader coverage with fewer cameras

“The construction of the new facility offered the perfect opportunity to upgrade from our old analog-based surveillance system, which was obsolete, to something more innovative.”

– Linda Helm, Executive Director at the Port Gamble S’Klallam Tribal Gaming Agency
